LIGHT IN MOTION. REFLECTION IN FORM. ARCHITECTURE IN GLOW.

AURA ORBIT by EME LIGHTING DESIGN BY DENIS ARGER

is a premium sculptural lighting collection defined by polished bronze forms, circular apertures, and warm internal illumination. **Suspended individually or composed as a cascading installation,** each element reflects the surrounding architecture while casting a soft ambient glow.

Created for sophisticated interiors, the collection combines artisanal finishing, architectural precision, and bespoke configurability. Its oval pendant modules appear to float in space, forming luminous constellations that adapt to the rhythm of the interior.

Elegant by day and cinematic by night, **Aura Orbit** brings depth, warmth, and quiet drama to the world's most **exclusive spaces.**

LIGHT IN MOTION. REFLECTION IN FORM. ARCHITECTURE IN GLOW.

AURA ORBIT EME LIGHTING

DESIGN BY DENIS ARGER

LUXURY SCULPTURAL LIGHTING SYSTEM

The Aura Orbit Collection is a refined lighting family created for private residences, penthouses, boutique hotels, and exclusive hospitality interiors. Designed as a sculptural composition of luminous bronze forms, the collection transforms light into an architectural statement — elegant, atmospheric, and deeply immersive.

Each pendant is shaped as a polished oval metal body with precision-cut circular openings. Within the shell, a warm inner diffuser creates a soft, golden glow, while the reflective bronze surface captures the surrounding interior, skyline, and movement of natural light. The result is a collection that feels both monumental and intimate — a suspended constellation of light, reflection, and shadow.

LIGHT IN MOTION. REFLECTION IN FORM. ARCHITECTURE IN GLOW.

Design Concept

Inspired by the geometry of celestial orbits, sunrise reflections, and the quiet luxury of contemporary architecture, Aurelia Orbit is designed to become the emotional center of a space.

The collection is not simply decorative lighting. It is a spatial experience. The pendants can be composed as a dramatic vertical cascade in a double-height atrium, a refined cluster above a dining table, or a single sculptural accent in a lounge, bedroom, or private gallery.

The main idea is controlled radiance: warm light held inside a polished metallic form, revealed through circular apertures and reflected across stone, glass, wood, and fabric.

Materials

Metal Body
Hand-finished metal shell with a polished or satin surface. The oval form is engineered to create a sculptural silhouette from every angle.

Inner Diffuser
Warm frosted diffuser designed to soften the LED source and create a comfortable, atmospheric glow.

Integrated LED Light Core
High-efficiency integrated warm LED module with optional dimming control for day-to-evening lighting scenarios.

Suspension System
Slim black suspension cable with adjustable drop length for precise installation in spaces of different ceiling heights.

Ceiling Canopy
Round or custom canopy in matching metal finish, designed to support single pendants or complex multi-pendant compositions.

Finish Options

THE COLLECTION CAN BE PRODUCED IN A CURATED PALETTE OF NOBLE METAL FINISHES:

Polished Bronze
A deep reflective bronze finish with rich warmth and mirror-like depth.

Champagne Bronze
A softer, lighter bronze tone for elegant contemporary interiors.

Brushed Brass
A refined golden finish with subtle linear texture and a classic luxury character.

Dark Bronze
A dramatic, architectural finish for moody interiors and high-contrast spaces.

Satin Nickel
A cooler, more restrained finish for modern penthouses and minimalist interiors.

CUSTOM FINISHES MAY BE DEVELOPED FOR PRIVATE PROJECTS UPON REQUEST.

Collection Variants

Grand Chandelier
A dramatic multi-pendant composition for double-height spaces, staircases, atriums, and entrance halls.

Dining Chandelier
A balanced cluster designed for dining rooms, private salons, and luxury hospitality spaces.

Single Pendant
A sculptural standalone light for bedrooms, lounges, corridors, or intimate seating areas.

Wall Sconce
A wall-mounted version that brings the collection's signature glow to vertical surfaces.

Table Lamp
A compact statement piece for consoles, side tables, bedside compositions, and private suites.

Floor Lamp
A freestanding sculptural object with a refined vertical silhouette, suitable for lounges, reading corners, and gallery-style interiors.

Customization

THE AURA ORBIT COLLECTION IS CONCEIVED AS A BESPOKE LIGHTING SYSTEM. EACH INSTALLATION CAN BE TAILORED TO THE SCALE, ARCHITECTURE, AND MOOD OF THE INTERIOR.

Available customization options include:

Number of pendant modules
Mixed pendant sizes
Custom drop lengths
Round, oval, or project-specific canopy
Single pendant or cluster composition
Finish selection
Warm light temperature options
Dimming and smart-control compatibility
Custom layouts for double-height spaces and architectural voids

Atmosphere & Application

AURA ORBIT IS DESIGNED FOR SPACES WHERE LIGHTING BECOMES PART OF THE ARCHITECTURE.

Ideal applications include:

PRIVATE PENTHOUSES
A cinematic focal point for living rooms, stairwells, dining areas, and skyline interiors.

LUXURY VILLAS
A warm sculptural centerpiece for double-height halls and refined lounge spaces.

BOUTIQUE HOTELS
A memorable signature installation for lobbies, suites, bars, and private dining rooms.

VIP RESIDENCES
A bespoke lighting statement for clients seeking exclusivity, craftsmanship, and emotional atmosphere.

GALLERY INTERIORS
A refined object of light that performs both as illumination and collectible design.

MATERIALS & ASSEMBLY

Construction, Finishes, and Technical Logic

1) PRIMARY MATERIALS

- Polished Bronze
- Champagne Bronze
- Brushed Brass
- Dark Bronze
- Satin Nickel
- Warm Frosted Diffuser
- Black Suspension Cable

2) ASSEMBLY METHOD

3) METAL COLOR COMBINATIONS

Bronze + Frosted Ivory

Champagne Bronze + Warm White

Brushed Brass + Amber Glow

Dark Bronze + Soft White

Satin Nickel + Warm Neutral

4) CRAFT DETAILS

Hand-Polished Surface

Mirror-like polishing creates rich reflections and enduring luxury.

Precision Cut Openings

CNC precision ensures clean geometry and perfect light distribution.

Integrated LED Core

High-performance LED module delivers efficient, flicker-free illumination.

Custom Cable Length

Adjustable suspension cable allows for tailored drop height and perfect installation.

CUSTOMIZATION IN SPACE

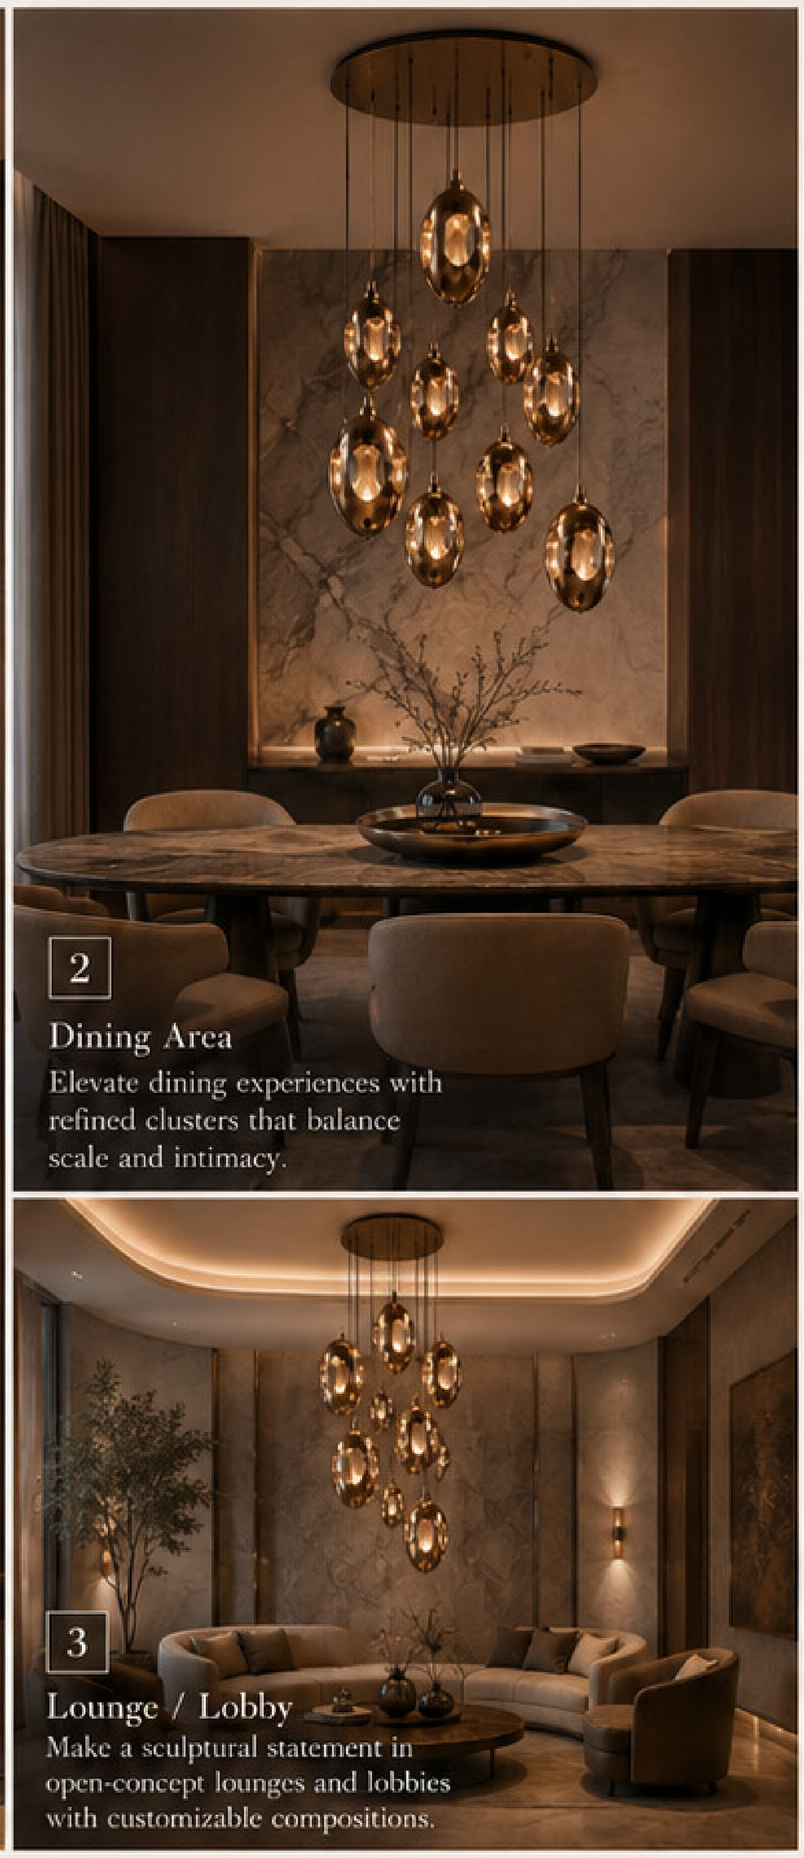

Architectural Applications and Layout Options

1

Double-Height Stairwell

Create drama and movement with cascading compositions at variable drop lengths.

2

Dining Area

Elevate dining experiences with refined clusters that balance scale and intimacy.

3

Lounge / Lobby

Make a sculptural statement in open-concept lounges and lobbies with customizable compositions.

4

Vertical Feature Installation

Design vertical emphasis in stair cores, atriums, and tall architectural voids.

CUSTOMIZATION OPTIONS

- Custom Pendant Quantity
- Mixed Module Sizes
- Variable Drop Lengths
- Round or Oval Canopy
- Finish Selection
- Single or Cluster Configuration

SUGGESTED USES

- Private Residence
- Boutique Hotel
- Penthouse
- Gallery Stairwell
- Dining Room
